i.Beat move S 2.0

MP3-Player with 1,5" TFT display

The i.Beat move S 2.0 with 4 or 8 GB of internal memory is the perfect all-rounder for every music and movie fan:

Listening pleasure on the go
The i.Beat move S 2.0 plays the common music file formats MP3, WMA, WAV and FLAC as well as the through digital rights management protected WMA-DRM9 files. Alternatively, you can listen to your favorite music through the integrated stereo FM radio – 30 radio station presets and an automatic tuning facilitate the operation.

A good song on the radio, the talk in the meeting or an idea that you would like to hold – use the i.Beat move S 2.0 as a voice recorder and record your ideas on the microphone or create radio recordings. Also for all other files, the i.Beat move S 2.0 can be used as a data storage.

Film and photo highlights always present
With its 65,000 color TFT display, your photos in the JPEG format become your constant companion and even videos in the AVI format find here the appropriate framework.

The operation – foolproof
The transmission of multimedia data happens quickly and easily via Hi-Speed USB 2.0 on your i.Beat move S 2.0. Through the navigations cross the player's operation becomes foolproof. Via folder navigation you can access your files. Various play modes enhance the listening pleasure – in the shuffle mode for example songs are played randomly, but can also be played only briefly. The sound can be optimized either via eight preset equalizer settings for different music styles or can be set user defined on the device.

Handy and stylish
The i.Beat move S 2.0 fits with its practical size of 38.5 mm x 74.5 mm x 9.5 mm in every jacket and guarantees through its built-in Li-Polymer battery up to 30 hours of music pleasure and 10 hours of video playback. In the black-chrome-colored design the i.Beat move S 2.0 is a treat for eyes and ears. Included are, besides the stereo headphones, a lanyard, a software CD, a USB 2.0 cable and a manual.
